

NEW PRODUCT

TIRE INFLATION STAND

- Tire Inflation Stand allows the user to easily check stagger without mounting the tire on a rim.
- Emulates rim sizes of 8", 10", 14" and 18" width.
- Fast acting valve allows user to quickly shut off air supply to tire at desired pressure, which is read out on an easy-to-read pressure gauge.
- Heavy duty base situated on pneumatic wheels for improved stability and transportation. Easily breaks down into smaller pieces to haul in any trailer.

Part# 430 TIS001
